Open-source and permissive
I want to give people the right to share, use, build and even make money upon the work I've created. All pages, artworks and content were made with Free/Libre Open-Sources Software on Gnu/Linux, and all sources are on Pepper&Carrot website, Source menu. Commercial usage, translations, fan-arts, printing, movies, video-games, sharing, repost are encouraged. You just need to credit my name - David Revoy - as the author.

Quality entertainment for everyone, everywhere
Pepper&Carrot is a comedy/humor webcomic suited for everyone, every age. No mature content, no violence. Free and open-source, Pepper&Carrot is a proud example of how cool could be free-culture. I'm focusing a lot on quality, because free and open-source doesn't mean bad or amateur. Au contraire.
Let's change comic industry!
With less intermediary between audience and artist you pay less and I benefit more. You support me directly.
No publisher/distributor/marketing/fashion can force me to change Pepper&Carrot to fit their vision of 'the market'.
... Why not a single success couldn't 'snowball' a whole industry in crisis? Let's try it!

Help me to boost Pepper&Carrot production today

Thank you for reading!
