Qallicity in the afternoon

Please, Princess Coriander...

Would you stop moving so much?

Alright, alright...

We are running out of time and your coronation ceremony starts in three hours.

...
You know...
I was thinking about the security again...

So many young kings and queens were assassinated during their coronation ceremony.
It has become part of my family's history.

And now, in a couple of hours, we will receive thousands of guests from all over the world
and I'll be at the center of attention.
I'm really, really afraid!

Don't worry, Coriander.

We'll follow our plan.
Shichimi and I will be your bodyguards, remember?

Exactly.
You should just take a break and think about something else for now.

OK.

Hey! Why don't I show you my latest invention?

... It's downstairs in my workshop.
Follow me.
You’ll soon understand why I wanted to build this new one.

It has to do with my worries about the coronation.

Let me introduce you to my new invention...

Hello world. I'm your PSYCHOLOGIST-BOT bleep, bloop!

Please lie down on my couch for a free examination.
So, what do you think?
Do you want to try it?

Bah.
No need.
I don't have any psychological issues.

Hey, what's wrong with your robot?!

Sorry!
It still has this bug that I can't solve.
It gives off an electric shock as soon as it detects a lie.

Bzzz!

A lie?!
But I've never told a lie in my entire LIFE!

That's... not... funny!!!
Funny? No, of course not! Sorry.
He he! True! Not funny at all!

Ha...
Ha...
Ha.

OH NO!
My robe for the ceremony is ruined! My tailor will be furious!

Bad robot!
I'll fix your bug, permanently!

WAIT!!!
I have an idea on how we could use this bug.

In the evening...

Bzzz!

Pepper, you're a genius!

No, you are.
It's your invention!

Next, please.
Hello, are you planning an assassination tonight?

Open-source and permissive
I want to give people the right to share, use, build and even make money upon the work I've created.
All pages, artworks and content were made with Free/Libre Open-Sources Software on Gnu/Linux, and all sources are on Pepper&Carrot website, Source menu. Commercial usage, translations, fan-arts, prints, movies, video-games, sharing, and reposts are encouraged.
You just need to give appropriate credit to the authors (artists, correctors, translators involved in the artwork you want to use), provide a link to the license, and indicate if changes were made. You may do so in any reasonable manner, but not in any way that suggests the authors endorses you or your use.

Quality entertainment for everyone, everywhere
Pepper&Carrot is a comedy/humor webcomic suited for everyone, every age. No mature content, no violence. Free and open-source, Pepper&Carrot is a proud example of how cool could be free-culture.
I'm focusing a lot on quality, because free and open-source doesn't mean bad or amateur. Au contraire.
Let's change comic industry!
With less intermediary between audience and artist you pay less and I benefit more. You support me directly.
No publisher/distributor/marketing/fashion can force me to change Pepper&Carrot to fit their vision of 'the market'.
. . . Why not a single success couldn't 'snowball' a whole industry in crisis? We'll see...

Help me boost Pepper&Carrot production today
