Pepper & Carrot

Episode 28: The Festivities
The three moons of Hereva were in alignment that night, and their reflected light caused quite a spectacle in the Zombiah cathedral.

It was under this magical light that Coriander, my friend, became...

Queen of Qualicity.
The festivities began soon after.

A giant party with all of the magic schools and hundreds of prestigious guests from all over Hereva.
Oh! It's you!

I was deep in my own thoughts.

I'm going inside. It's getting cold out here.

Quick! It's her!

Hurry! She's here!

Miss Saffron! Can you say a few words for the Qualicity Daily?

You see, Carrot? I think I understand why I'm not in the mood.

Yes, of course!

Miss Saffron! Hereva Style Gazette.

Which designer are you wearing tonight?
All my friends are so successful and sometimes I wish I had just a fraction of what they have.

Coriander is a queen.
Saffron is a rich superstar.

Even Shichimi looks so perfect with her school.

And me? What do I have?

This.
Pepper?

I snuck out some food. Do you want any?
It feels weird that I have to sneak around to eat any food.

But our teacher tells us we must look like pure spirits with no basic human needs.

Ha! There you are!

Finally! Somewhere I can go to get away from the photographers. They drive me crazy.

Photographers?

Try avoiding boring discussions with politicians when you have this thing on your head.
By the way, Pepper, I finally met your godmothers.

They really are "special".

I mean, you are so lucky.

I'm sure they let you do whatever you want.

Like, deifying this useless posturing and banter without worrying about diplomacy.

Or dancing and having fun without caring what people might think.

Or tasting all the food at the buffet without fearing that someone will see you!
Oh! Pepper!? Did we say something to upset you?

Not at all!

Thank you, my friends!

TO BE CONTINUED...

Open-source and permissive
I want to give people the right to share, use, build and even make money upon the work I've created. All pages, artworks and content were made with Free/Libre Open-Sources Software on Gnu/Linux, and all sources are on Pepper&Carrot website, Source menu. Commercial usage, translations, fan-arts, prints, movies, video-games, sharing, and reposts are encouraged. You just need to give appropriate credit to the authors (artists, correctors, translators involved in the artwork you want to use), provide a link to the license, and indicate if changes were made. You may do so in any reasonable manner, but not in any way that suggests the authors endorses you or your use.

Quality entertainment for everyone, everywhere
Pepper&Carrot is a comedy/humor webcomic suited for everyone, every age. No mature content, no violence. Free and open-source, Pepper&Carrot is a proud example of how cool could be free-culture. I'm focusing a lot on quality, because free and open-source doesn't mean bad or amateur. Au contraire.
Let's change comic industry!
With less intermediary between audience and artist you pay less and I benefit more. You support me directly.
No publisher/distributor/marketing/fashion can force me to change Pepper&Carrot to fit their vision of 'the market'.
. . . Why not a single success couldn't 'snowball' a whole industry in crisis? We'll see...

Help me boost Pepper&Carrot production today

Thank you for reading!
